Shelby YMCA

the

Your generosity strengthened the foundations of our community and made a huge impact on youth development, healthy living, and social responsibility. Your gift to support our efforts was even more critical as we pledged to deepen our impact in the community during this transitional year as two YMCA's in Richland county become one.

In 2021, the staff of the Mansfield Area Y entered into a Management Agreement with the Shelby YMCA Community Center. The staff provided guidance, leadership, and structure to the day-to-day operations at the Shelby Y. Fast forward to today, and the Management Agreement proved successful. The two organizations have joined forces to represent the YMCA of North Central Ohio. This union creates an exciting opportunity to serve more individuals and families through a shared mission and focus. Coming together will enable both Y's to benefit from shared resources and enhance our ability to respond to the most vital needs in our communities. Both Y's have a history of collaboration, so this union is a very important milestone for the Y's and the communities they serve, proving we all work BETTER TOGETHER!
